## UNECE Regional Conference on ICPD+25 **Enabling Choices: Population Dynamics and Sustainable Development**

Geneva, Palais des Nations, 1-2 October 2018

Organized jointly by UNECE and UNFPA

### CONCEPT NOTE

#### BACKGROUND

In 2014, the international community reviewed progress on 20 years of implementation of the Programme of Action of the International Conference on Population and Development (ICPD) at national, regional and global levels. The regional reviews were led by the United Nations Regional Commissions in close collaboration with the United Nations Population Fund (UNFPA). Their outcomes contributed to the global review of the ICPD Beyond 2014, which took place at the 47th session of the Commission on Population and Development (CPD) and culminated in the 29th Special Session of the United Nations General Assembly in September 2014.

In its Resolution 2014/1, the CPD emphasized that the outcome documents of the regional conferences provide region-specific guidance on population and development beyond 2014 for each region. They requested the Secretary-General, in collaboration with the United Nations system and relevant organizations, to continue assessing and reporting on progress towards the full implementation of the Programme of Action of the ICPD.

In the UNECE region<sup>1</sup>, the ICPD beyond 2014 review concluded with the UNECE Regional Conference *Enabling choices: Population Priorities for the 21st Century* (1-2 July 2013, Geneva). The UNECE regional report and the ICPD beyond 2014 Chair's summary, which was the unanimously agreed outcome of the Conference, outlined the main findings and recommendations for the way forward. Now, five years later, and within the context of the joint project *Enhanced integration of population dynamics into development planning: Follow-up to the ICPD in the UNECE region*, the UNECE Population Unit and UNFPA Eastern Europe and Central Asia Regional Office are working with member States, civil society partners and other stakeholders to assess progress made, identify challenges and gaps in implementation and prepare a regional report for the UNECE region on ICPD+25, based on the ICPD beyond 2014 Chair's summary and its monitoring framework.

The UNECE Regional Report on ICPD+25 will be launched at the **UNECE Regional Conference *Enabling Choices: Population Dynamics and Sustainable Development***, on 1-2 October 2018, which will conclude the five-year periodic assessment.
