High Level Group for the Modernisation of Official Statistics (HLG-MOS)
Achievements in 2017

2017 Projects

• Data Integration
  • A Guide to Data Integration for Official Statistics (v2.0)
• Data Architecture
  • Development of Common Statistical Data Architecture (V1.0)

Modernisation Groups

• Paper on “Innovative organisations: Strategies to stay relevant”;
• Quality indicators for the GSBPM (for both survey and administrative data);
• Hackathon on ‘Telling stories with SDG data’ and its products;
• Logical information model for variables;
• Training framework for key statistical skills based on GSBPM.
Projects for 2018 – Data Architecture

• The world of data and how we are using it is changing rapidly - will we be able to meet future needs in an efficient and agile way?

• A new business model - the "data refinery" – is about taking raw data and creating new products, data, and services through partnership and innovation

• The Common Statistical Data Architecture - a “fast track ticket” for organisations to speed up their development by profiting from each other’s experiences.
Projects for 2018 – Strategic Communication

Five work packages:

- Strategic Communications Framework
- Communications Issue Management
- Communications Maturity Model
- Communications Skillsets
- Branding statistical organisations
Active engagement

• Independence should not be a barrier to engaging with external partners

• Statistical organizations need to collaborate with key stakeholders such as government, researchers and the community to ensure statistical organizations have maximal impact in helping society to be more data driven.
Trusted data authority

Statistical organizations should use their inherent strengths and expertise (for example, in privacy issues and data production) to advise and engage in discussions on the country’s data ecosystem.
A service oriented approach

“DATA IS THE NEW OIL”
Statistical Offices can provide many services
Agile adaptive culture

Statistical organizations should aim to have a culture that anticipates and responds to a changing environment, as well as promotes collaboration across the organization to deliver more quickly useful products and services.

Strategies to achieve vision

• Demonstrate leadership by defining priorities
• Ensure work is community driven
• Provide mechanisms for a flexible, result oriented and agile approach

Join the Statistical Modernisation Community
https://statswiki.unece.org/x/RxMFBw
Feedback requested

• The Conference is invited to:

  a) Discuss outcomes of recent HLG MOS work

  b) Advise on future priorities

  c) Endorse the new HLG-MOS vision
