

# **FAOSTAT2 PROJECT and CountrySTAT**

**Statistics Division**

**Food and Agriculture Organization of the  
United Nations**

# Objectives of the New FAOSTAT2 System

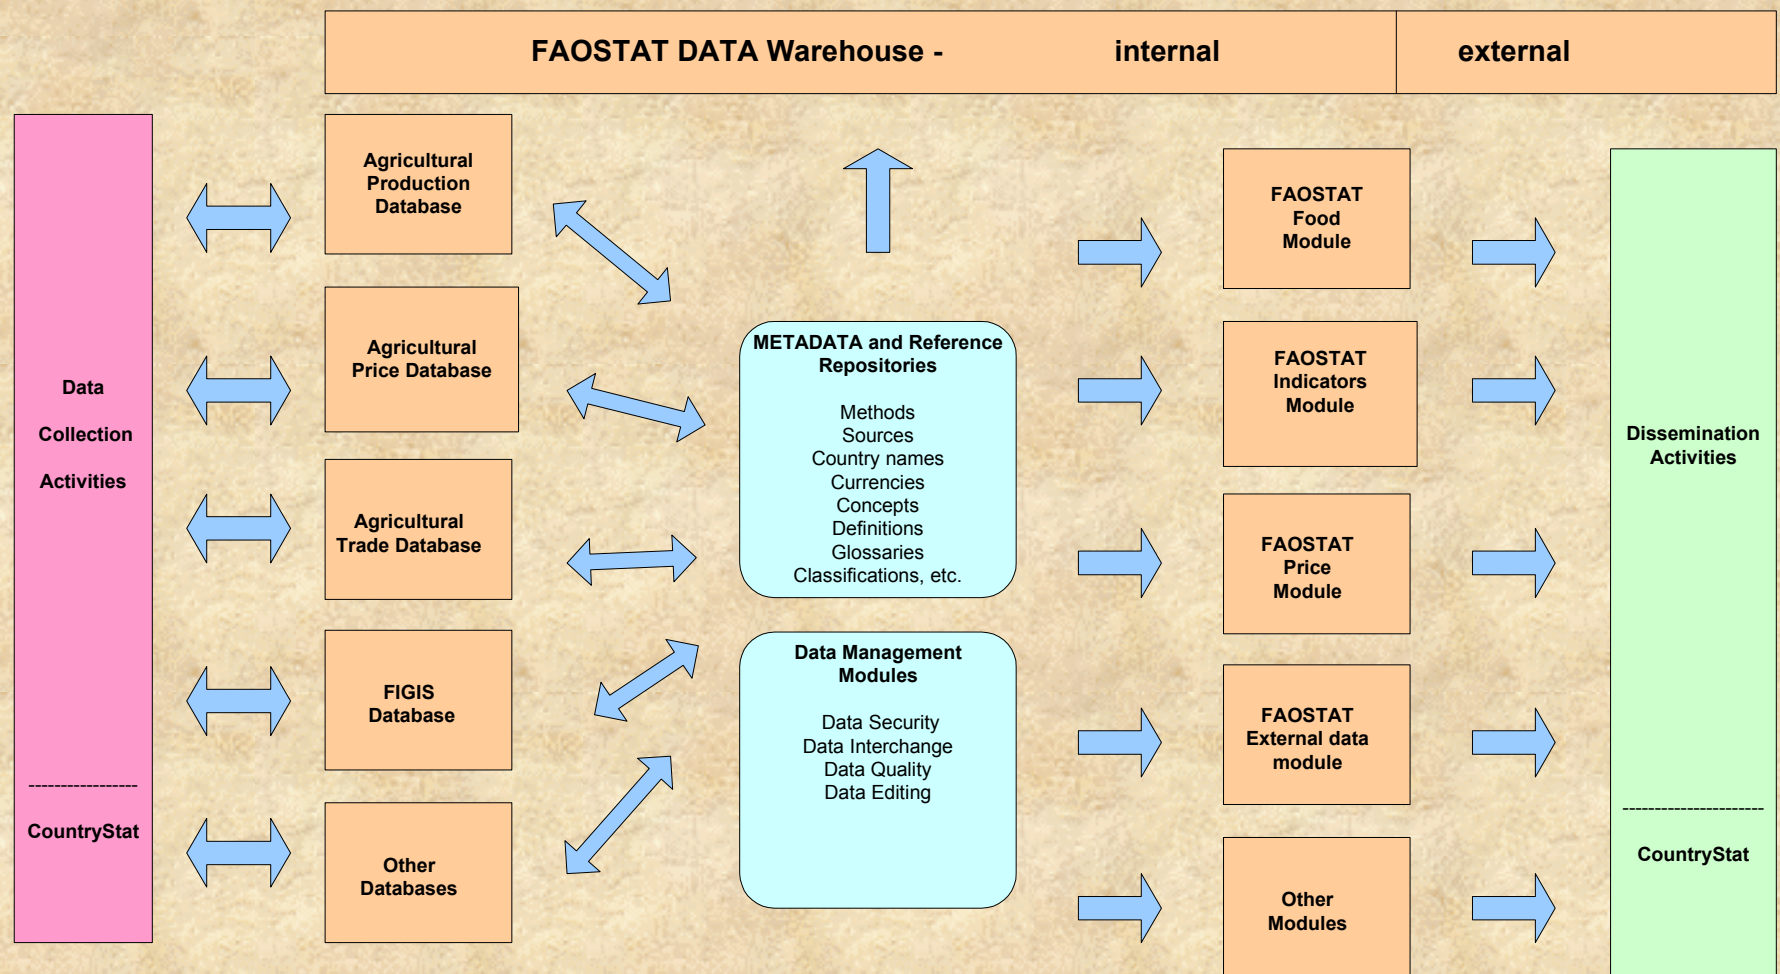

- Provide an improved user interface, streamlined system processes, and a stable and reliable technical environment for the FAOSTAT working system.
- Improve the quality of the data by providing robust tools for compiling, validating, estimating and analyzing data both at FAO headquarters as well as at the country level.
- Incorporate new user requirements for system functionality and access to new data sets.
- Improve user access to FAOSTAT data by enhancing and creating new mechanisms for data dissemination, including access to data across domains.
- Enhance data integrity by ensuring that appropriate methodologies and data standards are consistently applied.

# **Incorporate New User Requirements**

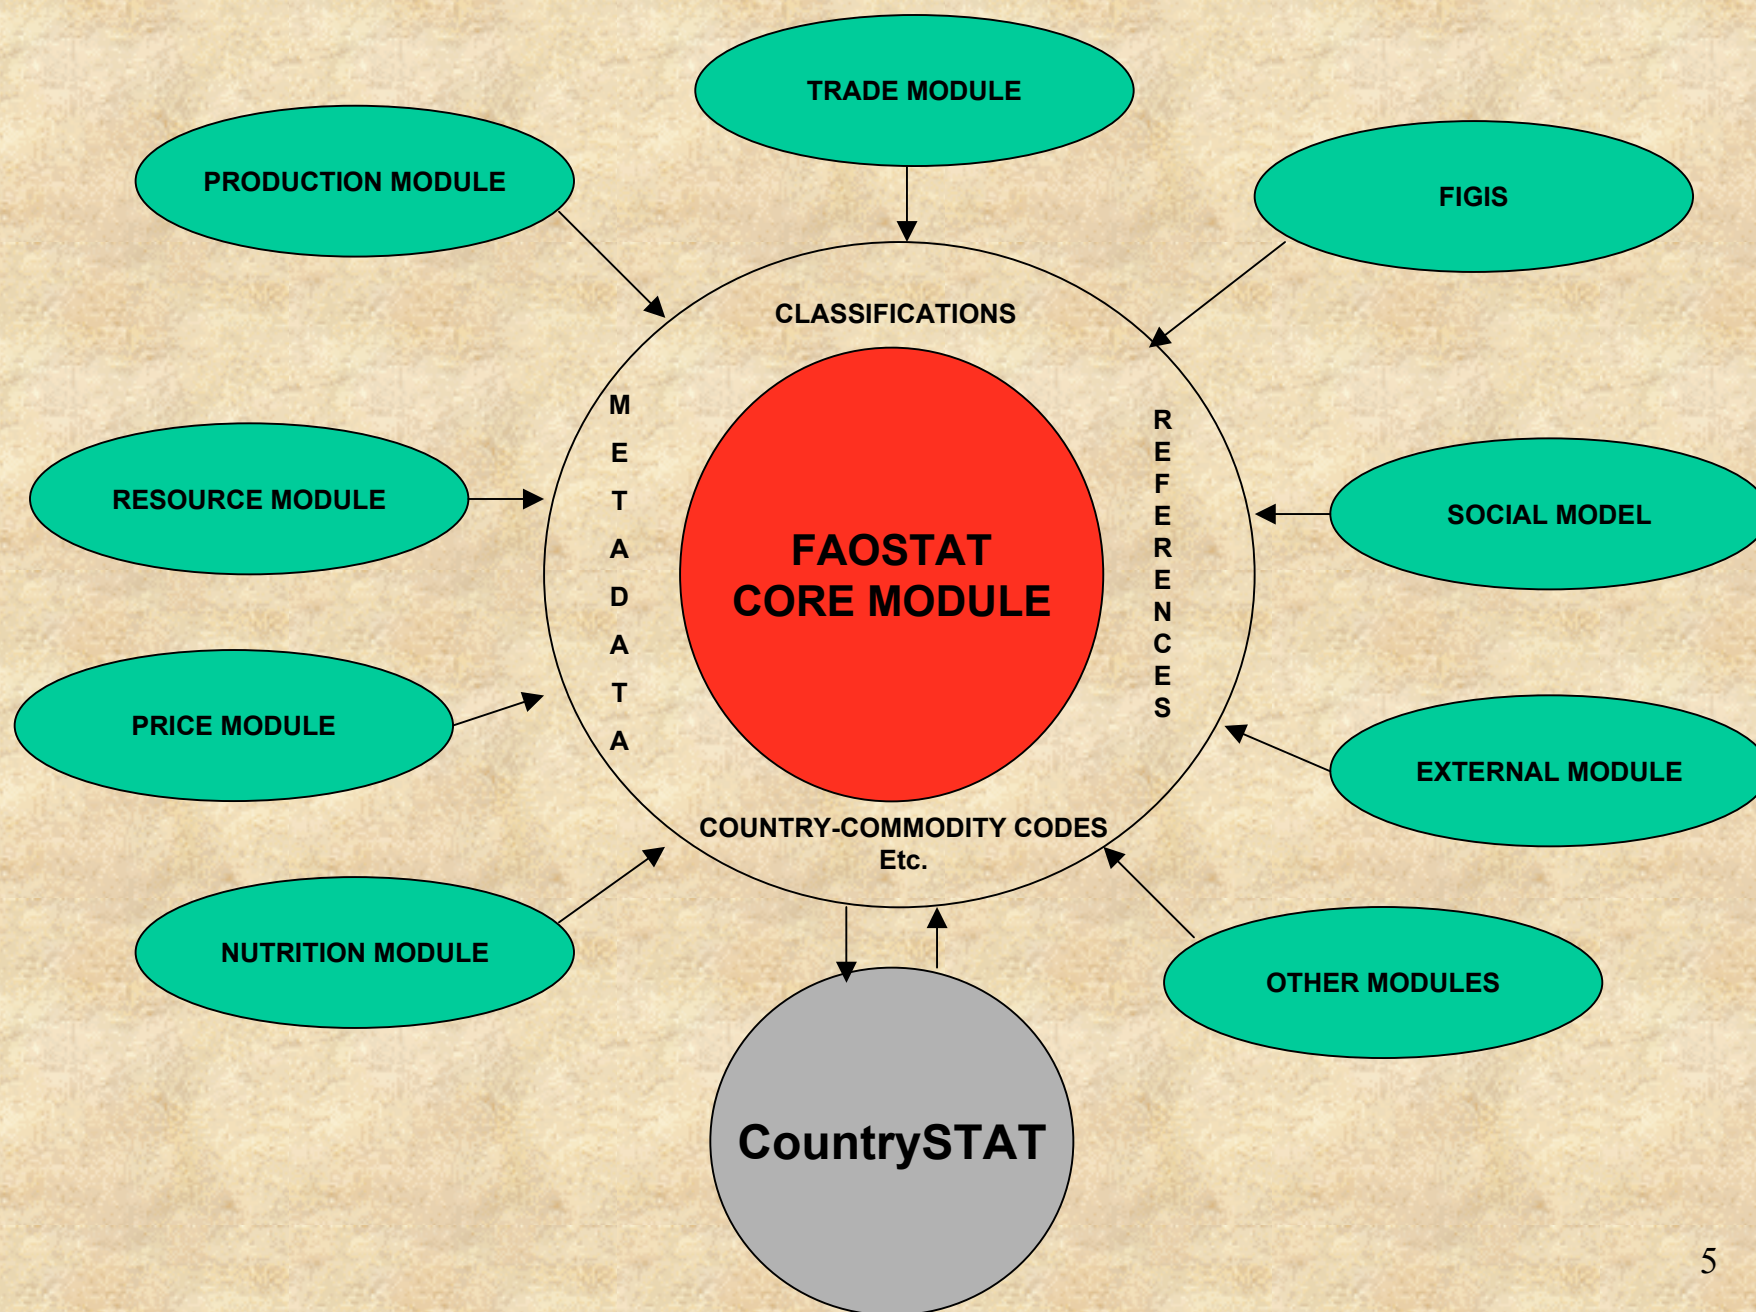

- Data of varying periodicity
- Data projections
- Sub-national data
- Geo-referenced data
- Data from external sources
- Meta data
- Reference data
