Intro: GoA and SDG’s

• 2015 : GoA signed the committment on SDG
• The approach: to align the process of SDG with the process of EU integration
• 2017: Establishment of Inter-Institutional Working Group
• 2017: Establishment of Inter-Institutional Committee
• 2017 : Baseline report approved by the committee in January 2018;

Intro: GoA and SDG

• 2016- on Government and UN agencies organized for different goals Workshops on raising awareness for the SDGs;
• 2017: INSTAT ( NSI) as part of the WG has established its own working groups for SDIs, where a person is assigned for each Goal.
  
  This working group collects all the indicators from line ministries and agencies, provide trainings to the line ministries for data collection, data processing and storage of the data.

• 2018: GoA will report at the HLPF, a statistical annex will accompani the report. A side event will be organized in collaboration with Switzerland.
1. Foreword, by the Prime Minister (tbc)
   Key political messages confirming Albania’s commitment to Agenda 2030

2. Executive Summary
   Main findings, key challenges and vision for achieving the SDGs

3. Introduction
   The section will summarize the alignment of Agenda 2030 with the NSDI II and the national strategies, identified priorities at the national level and the commitment of the institutions in the process

4. Methodology
   The methodology for the preparation of the report is incorporated here

5. Policy and Enabling Environment
   This section will elaborate on the role of the institutional stakeholders in the implementation process, the alignment of the SDGs with the national policy framework and the EU integration process.
Timeline for 2018 HLPF VNRs

- **Global Prep** (4 – 5 Dec 2017 Geneva)
- **COUNTRY ACTIVITIES** (Dec – Mar)
- **GLOBAL PREP** (20 – 21 March 2018 Dakar, Senegal)
- **REGIONAL VNR PREP WORKSHOPS** (February – April)
- **COUNTRY ACTIVITIES** (Apr – May, Draft)
- **MAIN MASSAGES** (18 May 2018)
- **COUNTRY ACTIVITIES** (May – June, FINALISE)
- **FINAL REPORTS** (15 June 2018)
- **GLOBAL PREP** (15 July 2018, New York)
- **HLPF VNR PRESENTATIONS** (Ministerial Segment, 16 – 18 July 2018)

Statistical Annex

- Statist is in charge of providing a statistical annex
- The annex is the first attempt to produce a statistical report on SDI in Albania.
- Provide statistical information for Albanian VNR.
- Select a set of indicators to monitor Albanian’s progress towards the SDGs.
We propose to select 3 indicators based on the relevance and availability.

The indicators proposed are:
- 2 statistical indicators (INSTAT)
- 1 indicator relevant to government priority (INSTAT + Expert)

Selection criteria

- Relevance for Albania, starting from indicators already available in Albania.
- Methodological compatibility to the indicators proposed by the UN Statistical Commission.
- Each indicator should follow the criteria of statistical quality approved by UNSC.
- Indicators should be independent from each other.
- Whenever possible, preference should be given to indicators that can be disaggregated by sex, age, income, education level (as requested by UN Statistical Commission).
Selection criteria

• Whenever possible, a comparison should be possible with the European level;
• Whenever possible, preference should be given to indicators that could be disaggregated by region at a later stage.

Statistical annex example

Goal X, Goal main description
Description on the selected indicators based on the selection criteria

UN Target X.X

National Target

Indicator: X.X.X selected indicator (name/short description)
Chart: 1 based on the data of the selected indicator

Definition: of the selected statistical indicator
Alignment with UN definition:
Objective: short comment on indicators UN objective.
Disaggregation: level of disaggregation

Example on the structure of information

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.

The two indicators have close links to the SDG-targets 4.1 and 4.3 and their respective indicators (4.1.1 and 4.3.1). They are monitored at the EU level and cover different aspects of education: learning in school and learning as an adult in formal or non-formal education and training.

| UN Target 4.1 | By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes. |
| Indicator 4.1.1 | Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in reading and mathematics, by sex. |
| Indicator 4.3.1 | Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months, by sex. |

Chart 1. Early school leavers  
Percentage of the population aged 15-24

</tr>
</tbody>
</table>

Definition: percentage of the population aged 15 to 24 having reached at most lower secondary education and not being involved in any form of education (either formal or non-formal) in the four weeks preceding the survey.

Alignment with UN definition: to be consistent with target 4.1, the indicator should decrease.

Disaggregation: sex.

Chart 2. Lifelong learning  
Percentage of the population aged 25-64

<td>0.1</td>
</tr>
</tbody>
</table>

Definition: percentage of the adult population between 25 and 64 that participated in formal and non-formal education and training in the four weeks prior to the interview.

Alignment with UN definition: to be consistent with target 4.3, the indicator should increase.

Disaggregations: sex, education.

Periodicity: annually

Available time series: 2010-2017
Time line future steps

• 13 April INSTAT will finalize the statistical indicators as per the structure given and circulate to the WC for comments.
• 20 April Final version of the annex will be sent to PMO.
• End of the year a first report covering the produced SDG will be published.

THANK YOU FOR YOUR KIND ATTENTION!
