

Population census round 2019

Population census round 2019

Population census - statistical observation, which includes the process of collecting, processing the demographic, economic and social data characterizing the respondent at a certain point in time, analyzing and disseminating aggregated data

In June 2015, the United Nations (hereinafter UN) announced the launch of the next round of population censuses in 2020. The Council of Heads of State of the Commonwealth of Independent States (hereinafter referred to as the CIS) of September 16, 2016 in the city of Bishkek, decided to hold regular population censuses in the CIS member states in the closest possible time to 2020, preferably from October 2019 to October 2020.

The population census 2019 in the Republic of Kazakhstan is planned in accordance with:

- Law of the Republic of Kazakhstan "On State Statistics";
- Resolution of the Government of the Republic of Kazakhstan "On the rules and timeframes for national censuses";
- The Decree of the Government of the Republic of Kazakhstan "On the population census 2019 in the Republic of Kazakhstan" with the Plan of Measures for Conducting the Population Census in the Republic of Kazakhstan;
- The Decree of the Government of the Republic of Kazakhstan "On the establishment of the republican commission for census assistance";
- Instruction of the Head of the Presidential Administration of the Republic of Kazakhstan Adilbek Zhaksybekov No. 17-61-44.120-1 of 22.09.2017.
- Order of the Minister of National Economy of the Republic of Kazakhstan of 03.03.2018 №92 "On approval of standard qualifying characteristics of positions of managers, specialists and other employees of organizations in the areas of state statistical activity and regulation of trading activities";

Population data collection during census round 2019

November 1-15 Internet census online at «sanaq.gov.kz»

November 1-30 respondents' interviews using tablets

December 1 - 7, after the completion of the census questionnaire, a selective control round of respondents is conducted with a coverage of at least 10% to determine the reliability of census questionnaires and full coverage.

In hard-to-reach areas, the census is conducted using a tablet a month before the population census.

Internet

During an Internet survey, the respondents fill out the questionnaires in electronic form at "sanaq.gov.kz".

Online the respondent gets registered defining status and identification by means of personal identification data, mobile phone numbers, and e-mail addresses. When completing questionnaires online, the relevant classifiers and directories are tied to the questions when selecting answers.

Format-logical check (FLC) for filling and moving from question to question is provided.

After completing the internet survey, the respondent receives a notification of the census during the registration at the registration e-mail and mobile phone.

Respondent registration for filling out questionnaires via the Internet

The image shows a web browser window with the address bar displaying "https://sanaq.gov.kz". The page title is "Пароль" (Password) and "Регистрация" (Registration). The registration form includes the following fields:

ИИН	<input type="text" value="123456789987654"/>
номер удостоверения	<input type="text" value="123456789987654"/>
номер телефона	<input type="text" value="+7(111)111-22-33"/>
кодовое слова	<input type="text"/>
введите код регистрации	<input type="text" value="fG2yQ23"/>

A blue button labeled "Регистрация" is located at the bottom right of the form.

Respondent registration for filling out questionnaires via the Internet

The screenshot shows a web browser window with the address bar displaying "https://sanaq.gov.kz". The page content includes a series of four overlapping panels, each with a blue header and four radio button options labeled "Setting 1" through "Setting 4".

- 1ПП**: Setting 3 is selected.
- 2Ж**: Setting 3 is selected.
- 3И**: Setting 3 is selected.
- 4В**: Setting 3 is selected.

At the bottom of the form is a large blue button labeled "отправить" (Send).

Tablet

Using a tablet: involves a continuous survey of citizens within 30 calendar days to collect information by census personnel. The collection of information will be carried off filling out census questionnaires.

In the tablet there is a database of administrative sources on the census site.

Formative-logical checks (FLC) for filling out electronic questionnaires and moving from question to question have been provided.

When completing the questionnaires, corresponding marks are entered in the listed answers, if necessary, figures and / or text are entered.

All registered respondents and interviewers will receive certificates on the census.

Regional Department of Statistics

The census department (in each SCC, 2-year contract))

**Subordinate
organizations and
institutions**

Comparing Over Time - Census Data Resources of 2009 and 2019

	2009	2019
Budget	6.5 billion tenge.	8.8 billion tenge
Number of temporarily employed personnel,	83 000 persons	29 582 persons
of them:	1674 persons – Census Offices Heads	3 730 persons– instructors in the preparation and conduct of national censuses under a contract for paid services agreement (supervisory trainers)
	13 468 persons– supervisory trainers	3 475 чел. – 1st stage interviewers (register clerks)
	9 490 persons– register clerks	22 377 чел. – 2nd stage interviewers (census takers)
	58 368 persons– census takers	

In the preparatory period, the authorized body implements the following activities:

- development of a plan of measures for the conduct of the national census;
- development and approval of the procedure for conducting censuses, questionnaires, methodological tools for conducting a national census, and the development of joint acts on interaction with government bodies;
- organization of works on the development of objects of information and communication infrastructure, the preparation of training programs for the conduct of the national census, and organization of training seminars for census personnel;
- in conjunction with the appropriate authorities, commissions, census personnel conducting public awareness-raising campaign among the population about the purposes and procedure of the national census;
- census personnel selection and conclusion of contracts for participation in the national census in accordance with the legislation of the Republic of Kazakhstan.

In the main period, the following activities are implemented by the authorized body:

- respondents interviewing and filling out the entry in the census forms with the received information;
- a selective control round of respondents at the end of the survey with a coverage of at least 10% to determine the reliability of census forms data and the completeness of respondents' coverage by the census personnel ;
- transmitting received primary statistical data (from the respondent to the interviewer) to the authorized body;
- input of census forms data into the information system as and when received.

In the final period the authorized body implements the following measures:

- summing up the results of the national census;
- formation and publication the national census results as summary data.

Public awareness-raising campaign for census round 2019

The aim is public opinion formation, when the population:

- voluntarily participates in the census;
- gives fair answers to the questions of questionnaires.

Main objectives:

- informing the population about the goals and objectives of the census round 2019 in the Republic of Kazakhstan, timeframes and methodology, the questions to be asked during the population survey, and safety while participating in the census;
- overcoming phobias and negative stereotypes of the population related to the population census 2019 in the Republic of Kazakhstan;
- developing motivation for participation in the census;
- formation of a positive attitude to the interviewer of the population census 2019 in the Republic of Kazakhstan, an understanding of its importance for every resident and the country as a whole.

Forms of public awareness-raising campaign to ensure a complete enumeration of the population during the census round 2019

- Printed editions
- Radio stations
- TV channels
- Press Events (round tables, interviews, etc.)
- Technical support of respondents (Call-center)
- Posts in social networking blogs
- Video clips on the Internet
- Information posters
- Billboards
- Banners
