Main national data sources of available SDGs indicators

- Current observation of businesses
- Economic Census
- Agricultural Census
- Population Census
- Statistical surveys on social demographic issues
- Administrative records
Progress so far

The institutional and political support to implementation of SDGs in Azerbaijan

- At the beginning of the year a new established Department of Sustainable Development Statistics in the State Statistical Committee by the order of the chairman

- A new established National Coordinating Council for Sustainable Development by the Presidential Decree dated on 06.10.2016
Progress so far

Department of Sustainable Development Statistics of the State Statistical Committee

- Studying of impact of the statistics in the sustainable development
- Comprehensive analysis of the sustainable development indicators
- Identification of the selection procedure of the indicators for measurement of the sustainable development
- Implementation of scientific-practical and statistical investigations on measures and aspects of the sustainable development
- Improvement of practical and theoretical basis of the measurement framework of the sustainable development
- Development of the official statistical data, databases and publications on the sustainable development statistics
Progress so far

National Coordinating Council for Sustainable Development

- Coordinating the line government agencies in the national implementation framework of the SDGs
- Identifying national priorities and their indicators related global goals and targets
- Ensuring adaptation of the state programs and strategies to SDGs covering country’s socio-economic fields
- Ensuring yearly country report on SDGs
- Attracting local and foreign experts, specialists, international organizations and scientific institutions to its activities
- Establishing working groups in different directions related SDGs
Measurement framework and mechanism

- Line government agencies have their responsibilities for production and submit data on SDGs indicators according to goals and targets which they will be in charge of.

- The State Statistical Committee will be responsible for collecting data on corresponding SDGs indicators from responsible line government agencies.

- Country Progress Report will be prepared by the Council on the bases of SDGs indicators’ dates produced by responsible line government agencies.
Main challenges we face

- Development of methodology and techniques to compile the Sustainable Development Goal indicators
- Disaggregation of Sustainable Development Goals indicators (*income, sex, age, race, ethnicity, migratory status, disability, geographic location*)
- Lack of institutional strategy and coordination mechanism for SDG monitoring
- Non-availability of some SDG indicators in official statistics
- Inadequate competencies for expertly collection and analysis of SDGs data
Areas where technical support would be useful

- Consultation of development of the State Program on Improvement of the Official Statistics in terms of implementation of the SDGs

- Capacity building for monitoring and reporting on progress towards the SDG

- Consultation and support in prioritization and integration of the SDGs into national policies as well as monitoring and reporting on the implementation of the SDGs
Thanks for attention!
