Metsään.fi
Plan, manage online, find resources, provide services
The aerial photographs and maps are important tools for professionals, and for small businesses. Metsään.fi may replace the need to use a separate geographic information system or CRM.

A “one-stop shop” principle
An independent meeting point for forest owners and service providers
- Forest owners, service providers and Forest Centre can access the same information

Forest owners and service providers can:
- Inform the Finnish Forest Centre when work is completed
- Submit forest usage notifications and subsidy applications

The forest owner decides who may access the data
The service is offered in Finnish and Swedish.
Metsäin.fi is a service provided by the Finnish Forest Centre and funded by the Finnish Ministry of Agriculture and Forestry. eServices for forest owners and service providers are free of charge. Metsäin.fi supports the fulfilment of many strategies and EU directives, including the EU Forest Strategy, the PSI and INSPIRE directives, the development of rural livelihoods and the promotion of biodiversity.

The Finnish Forest Centre is a state-funded organisation covering the whole country. We are tasked with promoting forestry and related livelihoods, advising landowners on how to care for and benefit from their forests and the ecosystems therein, collecting and sharing data related to Finland’s forests and enforcing forestry legislation. The Finnish Forest Centre operates under the guidance of Ministry of Agriculture and Forestry.
