Annex II

New and amended Terms of References of the Teams of Specialists

Draft Terms of Reference of the ECE/FAO Team of Specialists on Boreal Forests

Reference to the Integrated Programme of Work: Work Area 1, “Data, monitoring, reporting and assessment”, and Work Area 2, “Policy dialogue and advice”

A. Objective(s)

• Contribute to science and policy cooperation on boreal forests, while reducing duplication of effort and encouraging the pursuit of cost-effective approaches for circumboreal cooperation;
• Increase collaboration with the International Boreal Forest Research Association (IBFRA) and other boreal-related research organizations, in order to strengthen science and policy cooperation with regards to the boreal biome;
• Improve awareness and understanding of the role boreal forests play in global issues such as climate change and the bioeconomy, as well as in addressing the challenges reflected in the 2030 Agenda for Sustainable Development;
• Advise the ECE/FAO Forestry and Timber Section on any matters related to boreal forests within the integrated programme of work.

B. Activities and functions

• Contribute to the exchange of information, experiences and best practices on boreal forests;
• Facilitate a science policy dialogue on boreal forest issues;
• Where appropriate, contribute to identifying knowledge gaps that – when addressed – can provide policy responses to international challenges;
• Work with other international bodies, including the International Boreal Forest Research Association (IBFRA), with a view to achieving coordination of initiatives;
• Collaborate with other ECE/FAO Teams of Specialists on cross-cutting issues.

C. Expected Major Outputs

1. The Team of Specialists on Boreal Forests will identify priority issues for the sustainable management of boreal forests, taking into account regional realities and differences. The Team will focus on increasing knowledge and understanding of issues related to boreal forests.

2. It will:

• Produce (and contribute to the production of) information products that reflect collaborative efforts on boreal forest issues, e.g. in relation to the 2030 Agenda for Sustainable Development, the UN Strategic Plan for Forests, and the ECE/FAO Integrated Programme of Work;
• Produce, based on existing information, assessment and scoping documents, presentations and other information products describing existing conditions in boreal forests, and identifying important issues and opportunities in their management;
• Provide consultation and advice on boreal-related issues as needed.

3 As outlined in the Haparanda Declaration of 2018.
### D. Background

### A. Objectives

1. To advise and support the joint ECE/FAO Forestry and Timber Section on the methodology, preparation and implementation of outlook studies. Serve as a repository of global, regional, sub-regional and national forest sector outlook studies; and forest policy developments; and facilitate exchange of knowledge.

### B. Activities and functions

2. Provide support and expertise to the secretariat to conduct a forest sector outlook study and related documents.

3. Present the findings of the studies in public forums, such as scientific and professional meetings.

4. Provide guidance on methods, analysis and conduct of forest sector outlook studies.

5. Provide support to the secretariat for enhancing member States' capacities on forest sector outlook studies.

6. Identify scenarios based on: structural developments in the forest sector; long-term supply and demand of wood and other goods and services; as well as impacts and implications of international and national policy developments.

7. Advise on timeline for new outlook studies and identify potential contributors and donors.

8. Undertake research in support of forest sector outlook studies.

9. Facilitate exchange of experience with forest sector outlook modelling among member States and contribute to increased capacities at national level to conduct forest sector outlook studies.

10. Provide an overview on alternative forest sector models.

11. Consider other cost-effective tools and studies for analysing policy impacts on the forest sector, such as foresight studies.

12. Contribute to strengthen policy-related components of the ECE/FAO Forestry and Timber Section's work and publications and disseminate information in support of decision-making processes with regards to outlook studies and international forest policy developments (creation of policy briefs, sharing of informative materials).
