

COMMITTEE ON FORESTS AND THE FOREST INDUSTRY
5-9 NOVEMBER 2018 | VANCOUVER | CANADA
BUILDING THE FUTURE WITH FORESTS

Dr. Guido Wimmers

Dr. Guido Wimmers is Associate Professor and the Chair of the Master of Engineering Program in Integrated Wood Design. He holds a Master Degree in Architectural Engineering and a Ph.D. in Engineering Science from the University of Innsbruck.

Prior to moving to Canada in 2007, he was leading the building physics department of Energie Tirol, and worked on modern timber design and Passive House Projects in Austria, Germany, and Italy, including large non-residential buildings. He was also involved in various research projects in the field of massive timber construction and prefabricated building envelopes. Guido is one of the initiators of Canada's first Passive House, Canada's first CLT application and Canada's first DLT application and has worked on sustainable projects all across Canada. Since 2014 Guido is the Chair of the Master of Engineering Program in Integrated Wood Design, a unique and fast paced 12 month MEng program combining interdisciplinary approach of combining modern Timber Engineering with Building Physics and "hands-on" experience with project work.
