PREVENTION OF CUSTOMS FRAUD WITH THE TIR SYSTEM

Application of Annex 9, Part II of the TIR Convention

Survey on controlled access to the TIR procedure

Note by the TIR secretariat

At its previous session, the TIRExB considered Informal document No.27 (2003), containing a draft survey on the application of Annex 9, Part II of the TIR Convention at the national level. The Board delivered a number of remarks concerning the structure and content of the survey and mandated the TIR secretariat to finalize the document (TIRExB/REP/2004/21draft, para.21). Following the session, the secretariat has modified the questionnaire accordingly and distributed it throughout Customs administrations and national guaranteeing associations of the Contracting Parties. A deadline for replies has been set on 15 June 2004. The final version of the survey is reproduced below.
Subject: Questionnaire on the application of Annex 9, Part II to the TIR Convention (authorized access of natural and legal persons to the TIR procedure)

Dear Sir/Madam,

Controlled access to the TIR procedure is generally recognized as one of the five pillars of the TIR system. It came into force in 1999 under Phase I of the TIR revision process and established a number of minimum conditions and requirements for transport operators to utilize the TIR system, which are laid down in Annex 9, Part II to the TIR Convention. These measures were introduced to safeguard the TIR system against fraudulent activities, committed in particular by international organized crime.

For the last five years, Contracting Parties have gained experience in the implementation of Annex 9, Part II to the TIR Convention. Controlled access to the TIR procedure has proved to be an indispensable tool to combat Customs fraud by preventing unwanted operators from joining the TIR system. At the same time, it has become obvious that not all opportunities created by the above provisions of the TIR Convention have been exhausted and that their application can be improved.

In 2003, the TIR Executive Board (TIRExB) included the application of controlled access to the TIR procedure into its programme work for 2003-2004 as a matter of priority. The TIRExB noted that the implementation of Annex 9, Part II varies from one country to another. To provide transparency on the matter, to identify examples of best practice and to highlight areas of possible improvement, the TIRExB and the TIR secretariat have developed a questionnaire which you will find attached to the present letter. The sequence of questions follows the structure of Annex 9, Part II to the TIR Convention. I should be grateful if you could reply to this questionnaire at your earliest convenience, but not later than 15 June 2004. To facilitate your work, the TIR secretariat has also developed an interactive form which you can fill in electronically. On request, this form can be sent to you via email.

cc: National guaranteeing associations
According to the TIR Convention, controlled access to the TIR procedure should be implemented by the Customs authorities in close cooperation with the national guaranteeing association. Therefore, it is highly desirable that the association participate in replying to the survey, in particular to questions 1, 2, 4, 5, 6, 10 and 17. To facilitate collaboration, a copy of the questionnaire is also sent to the national guaranteeing associations and IRU.

Should you have any question regarding the survey, please do not hesitate to contact the TIR secretariat.

Thank you very much for your valuable cooperation.

Yours sincerely,

Poul Hansen
