PRODUCT SAFETY COUNCIL
Role and tasks

- Monitors the functioning of mechanisms for communication and cooperation between market surveillance authorities and between customs authority and market surveillance authorities and makes recommendations for effective implementation of these mechanisms.

- Considers and gives opinions on draft procedures and reports relating to:
  - Questions about the risks of products in accordance with the law
  - Monitoring of accidents and damage to health which are suspected to have been caused by the products
  - Undertaking corrective measures

- Coordinates the activities of market surveillance authorities and customs authority in the preparation of the general program draft of market surveillance.
Coordination of Market Surveillance includes the following tasks:

- To hold the administrative affairs and chairmanship of the Product Safety Council (meetings, action plan, working groups, report to the government)

- To support the market surveillance authorities in their implementation and adoption of Law on Market Surveillance and other legislations in the field

- To administrate the Rapid System of Exchange of Information on dangerous (non-food) products
Cooperation
between MTT-MI, MH-SI, MAFWM, ME-QIS and Customs Administration (CA)
