Development schedule of the first priority technical regulations of the Customs Union

47 TRs CU

2011

On the basis of EU Directives and Regulations
DEVELOPMENT of the CUSTOMS UNION TECHNICAL REGULATIONS
14 TRs CU are adopted, shall be entered into force:

15.02.2012

01.07.2012
- On safety of low voltage equipment *(Directive 2006/95/EC)*
- On safety of products intended for children and adolescents
- On safety of perfumes and cosmetics *(Directive 76/768/EEC)*
- On safety of packages *(Directive 94/62/EC)*

- On requirements for automobile and aviation gasoline, diesel and marine fuels, jet fuels and heating oils *(Directive 98/70/EC)*

15.02.2013
- On safety of machinery and equipment *(Directive 2006/42/EC)*
- On safety of equipment for operation in explosive atmospheres *(Directive 94/9/EC)*

18.04.2013
- On safety of lifts *(Directive 95/16/EC)*

02.08.2014
- On safety of railway rolling stock
- On safety of high-speed railway transport
- On safety of railway infrastructure

15.02.2015
- On safety of motor roads
DEVELOPMENT of the CUSTOMS UNION TECHNICAL REGULATIONS

- Adopted technical regulations of the Customs Union
  
- Draft technical regulations of the Customs Union, presented for intrastate approval
  
- Draft technical regulations of the Customs Union, subjected to public discussion
  
- Draft technical regulations of the Customs Union, presented for public discussion
On safety of food products

Food products with regard to their marking

On safety of package (materials, coming in contact with alimentary media)

On safety of food additives

Milk and dairy
Fat-and-oil products
Meat and meat products
Juice products
Grain
Model of technical regulation of chemical products in the Customs Union

On safety of chemical products

Materials, coming in contact with alimentary media

Household chemical products

Paintwork materials

Petrol, diesel fuels and fuel oils

...
Graphic representation of the single mark for products circulation in the market of the Customs Union member-states

It stands for Eurasian Conformity

Ascertains that products bearing this mark have undergone all conformity assessment (attestation) procedures specified in technical regulations of the Customs Union and meet the requirements of all applicable to these products technical regulations of the Customs Union.
Decision of the Customs Union Commission on adoption of the Customs Union technical regulation

ESTABLISHES

✓ Date of entry into force
✓ List of standards for requirements implementation
✓ List of standards for tests
✓ Rules for transition period:
  – use of earlier issued documents on conformity attestation
  – application of procedures for the measurements of safety factors, for which there are no standards
Prior the entry into force of the Customs Union technical regulations

- Types of products subject to mandatory conformity assessment (attestation)
  - Mandatory requirements (standards of the member-states and international requirements)
  - Forms of mandatory conformity assessment (certification and declaration)
    - Common Certificates
    - Common Declarations of Conformity
Uniform list of products subject to mandatory conformity assessment (attestation) within the Customs Union with issuance of uniform documents

- LOW VOLTAGE EQUIPMENT
- HOUSEHOLD RADIOELECTRONICS
- LIGHTING PRODUCTS
- HOUSEHOLD DEVICES OPERATING ON SOLID, LIQUID AND GAS FUELS
- MEANS OF COMPUTER TECHNOLOGY
- PRODUCTS FOR ROAD SECTOR APPLICATIONS
- AGRICULTURAL MACHINERY
- PRODUCTS OF LIGHT INDUSTRY
- TOYS AND PRODUCTS FOR CHILDREN
- TOBACCO PRODUCTS
- WATCHES
- SMALL CRAFTS
- FURNITURE
- GLASS TARE
- MEANS OF PACKING
- HOUSEWARE
- FEED FOR ANIMALS, BIRDS AND FISH
- PERSONAL PROTECTION MEANS
- PETROLEUM PRODUCTS
- DETERGENTS
- SANITARY CERAMICS
- FINISHED FOODS

Approved by CUC Decision of 7 April 2011 No. 620 (new version)

Previously issued on single form certificates of conformity and adopted declarations of conformity for products, for which the form of conformity attestation has been changed in the Uniform list, are valid till the expiry date without re-registration. Changes in labeling related to the conformity marking for such products are not required.
Development of common standards, related to the technical regulations of the Customs Union

Use of common standards for all the Customs Union member-states – GOST

- For the purpose of meeting the requirements of the Customs Union technical regulation in the result of voluntary application
- For the purpose of using and fulfilling the requirements of the Customs Union technical regulation and performing conformity assessment (attestation) of products

During transitional period (prior adoption of GOSTs) national (governmental) standards of the Customs Union member-states can be used:
- GOST R
- STB
- ST RK
DEVELOPMENT of COMMON STANDARDS, INTERRELATED with the CUSTOMS UNION TECHNICAL REGULATIONS

Target programs for preparation of intergovernmental standards for products, for which the technical regulations of the Customs Union are in progress

Inclusion of standards into The Plan of EASC intergovernmental standardization

Development of intergovernmental standards

Implementation of European guidelines

- to put into force mandatory at national level in every member-state of the Customs Union in a single determined deadline
- to cancel all national (governmental) standards that are in conflict with intergovernmental standards
- to notify of the beginning of development of national (governmental) standards and to cease their development when deciding on development of intergovernmental standards for a given object of standardization
Thank you for attention!
