A safer, more secure and resilient society

ISO/TC 292 Security and resilience
Chair Åsa Kyrk Gere
Scope

Standardization in the field of security to enhance the safety and resilience of society.

Excluded: Sector specific security projects developed in other relevant ISO committees and projects developed in ISO/TC 262 and ISO/PC 278.
UN Coordination Group & DCCG
UN Coordination Group: 22370 – Urban Resilience

Framework and principles:
- coherent with the entire 2030 SDG
- a portfolio of standards complementing the implementation of SDG
Developing Country Cooperation Group
Greatest challenge – expert engagement

ISO and UNs national representation and experts need to come together in a joint effort at the national level - in the national mirror committees.

We need multi-stakeholder expert engagement in order to develop high quality standards.
