ECONOMIC COMMISSION FOR EUROPE

INLAND TRANSPORT COMMITTEE

Working Party on Customs Questions affecting Transport

One-hundred-and-sixteenth session
Agenda item 4 (c)

INTERNATIONAL CONVENTION ON THE HARMONIZATION
OF FRONTIER CONTROLS OF GOODS, 1982
(“HARMONIZATION CONVENTION”)

Preparation of a new annex on rail border crossing

Transmitted by the Committee of the Organization for Cooperation between Railways (OSJD)

The Working Party may wish to consider the draft of a new annex 9 to the “Harmonization Convention”, transmitted by the Organization for Cooperation between Railways (OSJD). This draft was finalized at the sixth meeting of the OSJD/UNECE working group (Warsaw, 6 and 7 March 2007).

Annex 9

FACILITATION OF BORDER CROSSING PROCEDURES
FOR INTERNATIONAL RAIL FREIGHT

Done at Geneva ............................... 2007

UNITED NATIONS
INTERNATIONAL CONVENTION ON THE HARMONIZATION
OF FRONTIER CONTROLS OF GOODS, 1982
(“HARMONIZATION CONVENTION”)

DRAFT

Annex 9

FACILITATION OF BORDER CROSSING PROCEDURES
FOR INTERNATIONAL RAIL FREIGHT

Article 1

Principles

1. This Annex, supplementing the provisions of the Convention, is intended to define the
steps that need to be taken to facilitate and expedite the crossing of borders for international rail
freight.

2. The Contracting Parties pledge to cooperate in order to standardize as fully as possible
formalities and requirements in respect of documents and procedures in all areas connected with
the carriage of goods by rail.

3. The Contracting Parties shall endeavour to base all forms of joint controls at adjoining
border (transfer) railway stations (hereinafter “border (transfer) stations”) on bilateral
agreements.

Article 2

Crossing of borders

1. The Contracting Parties shall facilitate all border crossing procedures, including the
issuance of visas to locomotive crews, refrigerated unit crews, persons accompanying freight
shipments and staff at border (transfer) stations.

2. The border crossing procedure for the persons listed in article 2, paragraph 1, including
official documents confirming their status, shall be determined on the basis of bilateral
agreements.

3. When a joint control is carried out, the officials of the border, customs and other agencies
that conduct controls at border (transfer) stations shall, in the performance of their official duties,
cross the State frontier using documents stipulated by the Contracting Parties.
Article 3

Requirements for border (transfer) stations

To rationalize and expedite the required formalities at border (transfer) stations, the Contracting Parties shall observe the following minimum requirements for border (transfer) stations open to international rail freight traffic:

1. Border (transfer) stations shall have buildings (premises), plant, facilities and technical equipment enabling them to carry out daily and round-the-clock controls, if this is justified and is appropriate to the volume of freight traffic;

2. Border (transfer) stations where phytosanitary, veterinary and other controls are carried out shall be provided with technical equipment;

3. The carrying and traffic capacity of border (transfer) stations and adjacent tracks must be adequate for the volume of traffic;

4. Inspection areas must be available, as well as warehousing for the temporary storage of goods subject to customs or other forms of control;

5. Equipment, facilities, information technology and communications systems must be available to enable the exchange in advance of information, including on goods approaching border (transfer) stations, corresponding to the information contained in the railway consignment note and customs declaration;

6. Sufficient qualified staff of the railway, customs, border and other agencies must be on hand at border (transfer) stations to cope with the freight volumes involved.

Article 4

Inspection of rolling stock, containers and goods by the railways

The railway administrations of the Contracting Parties shall coordinate action with respect to the inspection of rolling stock, containers, piggyback semi-trailers and goods and the processing of shipping and accompanying documentation.

Article 5

Controls

The Contracting Parties:

1. Shall ensure reciprocal recognition of all forms of control of rolling stock, containers, piggyback semi-trailers and goods, provided the objectives thereof coincide;

2. Shall carry out customs controls relying on the principle of selection on the basis of risk evaluation and management;
(3) Shall carry out simplified controls at border (transfer) stations, moving certain forms of control to the station of destination in accordance with the legislation of the Contracting Parties;

(4) Shall not perform inspections of transit goods if reliable information on the goods has been provided and if they are contained in a properly closed and sealed rolling stock unit, container, piggyback semi-trailer or wagon, with the exception of customs controls based on the principle set forth in paragraph 2 of this article.

Article 6

Time limits

1. The Contracting Parties shall ensure compliance with the time limits specified in bilateral agreements for technical operations involving the reception and transfer of trains at border (transfer) stations, including all types of controls, and shall endeavour to reduce these time limits by improving the technology and equipment used.

2. The Contracting Parties shall record delays at border (transfer) stations and report annually thereon to UNECE with a view to conducting subsequent analysis and adopting measures to reduce the delays.

Article 7

Documentation

1. The Contracting Parties shall ensure that shipping and accompanying documents are properly formulated in accordance with the legislation of the importing and transit countries.

2. In their mutual relations, the Contracting Parties may use electronic systems for the exchange of information corresponding to the information contained in railway consignment notes, customs declarations and other documents drawn up in accordance with the legislation of the Contracting Parties.

3. The Contracting Parties shall endeavour to provide the customs agencies in advance with information on goods arriving at border (transfer) stations corresponding to the information contained in the railway consignment note and customs declaration. The format, and the procedure and deadlines for providing the information, shall be determined by the Contracting Parties.

Article 8

Use of the common CIM/SMGS railway consignment note

The Contracting Parties may use, in addition to the other shipping documents currently stipulated by international treaties, the common CIM/SMGS railway consignment note.
