BIC codes update

E-BIC Service for Customs

Global ACEP Database
The BIC Code Registry Today

2500+ codes registered to over 2000 container owner/operators in over 120 countries.

Est. > 99% of world's container fleet is marked with ISO-6346 code, in compliance with the CCC and Istanbul conventions.
A valid BIC Code contributes to a secure supply chain and secure borders

- Allows for instant identification of the owner of any container, 24x7 - regardless of how many times it changes hands.
- Applicants provide full contact info and proof of legitimate business.
- Eliminates possibility of duplicates
Customs use of BIC Registry

- In 2011, individual Customs Administrations began requesting electronic versions of the Register for use in threat assessment modules.
e-BIC for Customs launched in 2014

- Download latest file directly into systems
- XML or CSV format available
- Real-time Validation
- Allows Authorities to perform automated validations to assist in threat assessment.

Summing up...

- The Register is a valuable tool for Customs
- Free of charge for Customs
- Set-up within one day
- BIC Register + Customs = Increased Security
ACEP

- Approved Continuous Examination Program
- CSC Examination scheme used on most containers
