Le directeur général de la prévention des risques

à

ADR Contracting Parties

Dear all,

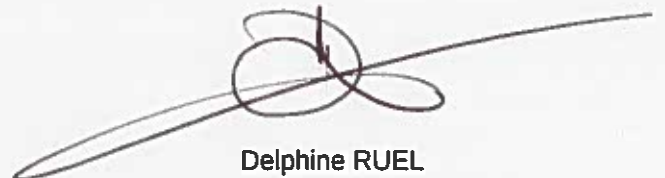

Attached please find the multilateral agreement M316 concerning the working pressure of composite cylinders intended for the carriage of hydrogen (UN 1049).

It is a renewal of the agreement M270, and it is proposed to you keeping in mind that some standardisation work is in progress for consideration of similar provisions.

If you agree we would be very grateful, if you could countersign this agreement and return a copy to us as well as to the UNECE secretariat.

Best regards,

La sous-directrice des risques accidentels

Delphine RUEL
