PROPOSAL FOR DRAFT CORRIGENDUM 2 TO THE 05 SERIES OF AMENDMENTS TO REGULATION No. 83
(Emissions of M1 and N1 categories of vehicles)

Transmitted by the expert from the United Kingdom

Note: The text reproduced below was prepared by the expert from the United Kingdom in order to correct the omission made in the proposal for the 05 series of amendments, where the text of Corrigendum 1 to the 04 series of amendments (document TRANS/WP.29/701, as incorporated in Amendment 4 to Revision 1 of Regulation No. 83) was overlooked and, instead, the obsolete text was used. De facto, the current document only reproduces the text of TRANS/WP.29/701 that contained the text adopted by WP.29 at its one-hundred-and-nineteenth session (TRANS/WP.29/689, para. 154). The secretariat also introduced into this Corrigendum a correction to the references in paragraphs 11.1.3.2. and 11.1.4.1.

The corrections to the Regulation are marked in bold characters.

Note: This document is distributed to the Experts on Pollution and Energy only.
