Subject: Proposal for incorporation of COP requirements for colour durability

India’s comments:
India while agreeing in principle with the proposal, feels that footnote which reads:

"***/ Representative distribution over categories, worst case, meaning a group of coated lamps using the same technology within the categories with the toughest conditions for the coating."

lacks clarity on the description of the worst case and could lead to difficulties of interpretation. It is requested that GRE may kindly elaborate the phrase "the toughest conditions" further.
