C. COMMENT

This proposal and TRANS/WP.29/GRSP/2004/26/Rev.1 aim to change the title and enlarge the scope of Regulation No. 16 in accordance with adding new requirements of the safety belt reminder. This is obviously the strengthening of the requirements of the Regulation No. 16. According to TRANS/WP.29/1044, Japan believes that this proposal should be introduced as new series amendment.
