Transport Security in the Pan-European context: selected issues and options

Dr. Wolfgang Elsner
Head of Unit
European Commission
DG TREN

UN-ECE Round Table,
08 February 2006
EU transport security legislation

1. Regulation EC n°2320/2002 civil aviation security
   → Security control at airports
   → European inspection regime

2. Regulation EC n°648/2005 Community Customs Code
   → Integrated management of external border
   → Authorised Economic Operator

3. Regulation EC n°725/2004 maritime & port facility security
   → IMO/Solas – ISPS part A transposes into the EC law
   → Aspects ISPS Part B extended to inner EU traffic
   → European inspection regime

→ Security measures extended to the whole port area

5. Chapter 1.10 (High-consequence dangerous goods)
Pipeline rules

→ Supply chain security (=“intermodal security”)

→ Modification of technical aspects of civil aviation rules

→ Passenger security: caution on complex rules
Identification of specific in-depth Initiative for UNECE

Chapter 1.10  (High-consequence dangerous goods)

→ Special rules for radio-tracking?
→ Special rules for storage?

→ Hydrate-chlorine, ammonia represent ± 70% of TDG-special treatment?
→ How to disable means of transport?

→ Stricter background checks?
→ Special identification cards?
→ Consigner identification?

→ Link up with IAEA rules and procedures?
→ ABOVE ALL: rules on implementation — obligatory checks – quotas for checks-reporting?
Thank you for your attention
