

Proposal for draft amendments to Regulation No. 107

Note: The text reproduced below was prepared by the expert from Germany in order to propose modifications to document ECE/TRANS/WP.29/GRSG/2006/32.

A. PROPOSAL

Annex 3,

Paragraph 7.6.12.2.5., amend to read:

"7.6.12.2.5. be installed so that the device can only be switched on when ~~a service door is operated and~~ the vehicle speed does not exceed 5 km/h and is switched off automatically before the vehicle reaches a speed exceeding 5 km/h."

B. JUSTIFICATION

The original proposal linked the activation of the service door lighting to the operation. In contrast it might be useful to be able to activate these lights without having to open the door, e.g. when approaching a badly lit bus stop, etc.
