

AMENDMENTS TO DOCUMENT ECE/TRANS/WP.29/2007/13

Transmitted by the representative of the European Communities

A. PROPOSAL

Paragraph 10.2., amend to read:

"10.2 The authority that has granted type-approval may at any time verify the conformity control methods applied in each production facility. The normal frequency of these verifications shall be **at least** one every two years."

B. JUSTIFICATION

The normal frequency of verifications must be such as to ensure that the relevant checks are reviewed over a period consistent with the climate of trust established by the type-approval authority. The frequency is generally discussed and agreed with the manufacturer when the initial assessment is performed.
