COMMITTEE OF EXPERTS ON THE TRANSPORT OF DANGEROUS GOODS AND ON THE GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS

Sub-Committee of Experts on the Transport of Dangerous Goods

Thirty-third session
Geneva, 30 June-9 July (a.m.) 2008
Item 4 (c) of the provisional agenda

LISTING, CLASSIFICATION AND PACKING

Correction to the draft amendments to the UN Recommendations on the Transport of Dangerous Goods

Note by the secretariat

1. In December 2007, the Sub-Committee of Experts on the Transport of Dangerous Goods adopted a proposal from Belgium to insert new entries in the Dangerous Goods List for substances with subsidiary risks (see ST/SG/AC.10/C.3/64 par.17).
2. In annex 1 to the report of the SCETDG on its thirty-second session (ST/SG/AC.10/C.3/64), for the new entries for calcium hypochlorite, hydrated, with not less than 5.5% but not more than 16% water with Class 8 subsidiary risk, the packing group II and III entries have been assigned a separate UN number (UN 3487 and UN 3488). This was not part of the Belgian proposal, in which both entries were assigned new UN number "EEEE" (see UN/SCETDG/32/INF.26).
3. The secretariat proposes to correct this by renumbering new UN Nos. 3488 to 3494 as UN Nos. 3487 to 3493, as shown below:
