

COMMITTEE OF EXPERTS ON THE TRANSPORT OF DANGEROUS GOODS AND ON THE GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS

Sub-Committee of Experts on the Transport of Dangerous Goods

Thirty-fourth session
Geneva, 1-9 December 2008
Item 7 (d) of the provisional agenda

MISCELLANEOUS PROPOSALS OF AMENDMENTS TO THE MODEL REGULATIONS ON THE TRANSPORT OF DANGEROUS GOODS

Addendum to ST/SG/AC.10/C.3/2008/90, Transport of coolant/conditioning units

Transmitted by the expert from the United Kingdom

Further to paper 2008/90, technological challenges defeated the expert from the United Kingdom in providing an accurate representation of the warning mark specified in the proposed paragraph 5.5.3.6.3. as Figure 5.5.2. This should appear as presented below.

Figure 5.5.2: Cooling/conditioning warning sign

Since the mark is entirely black on a white background, the proposed text in the second sentence of 5.5.3.6.3 should also be amended to read “The markings shall be black print on a white background with lettering not less than 25mm high.”.
