#### Working Party on the Transport of Dangerous Goods

**Joint Meeting of Experts on the Regulations annexed to the European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways (ADN) (ADN Safety Committee)**

#### Seventeenth session

Geneva, 23-27 August 2010

Item 5 (b) of the provisional agenda:

**Proposals for amendments to the Regulation annexed to ADN: Amendments for entry into force on 1 January 2013**

### Correction of the ADN checklist

**Transmitted by the Government of Austria<sup>1 2</sup>**

#### Introduction

1. On the first page of the ADN checklist in 8.6.3 it is required to fill in the "Name of product" under the points "Particulars of the cargo" and "Particulars of last cargo". On the second page of the checklist this is also required under "Loading/Unloading rate" although in the English version "Name of substance" is used instead of "Name of product".
2. The expressions "Name of product" and "Name of substance" are not defined in the ADN. In Austria some checklists have appeared, in which some company specific product names have been used instead of the proper shipping name, which is used in the transport document.
3. The checklist should be corrected for clarification.

4. Replace "Name of product" in these three places or "Name of substance" in the English version with "Proper shipping name".
