Paragraph 2.7.27., correct to read:

“2.7.27. “Objective luminous flux” means the design (target) value of the luminous flux of a light source or of a light source module that is to be achieved at the specified test voltage as indicated in:

(a) the relevant data sheet of the applicable light source Regulation according to which the light source is approved, or

(b) the technical specification as submitted with the light source module for approval of the lamp of which the light source module is a part.”
