

Proposal for draft Corrigendum 2 to Supplement 3 to the 04 series of amendments of
Regulation No. 48
(Installation of lighting and light-signalling devices)

A. PROPOSAL

This document replace document ECE/TRANS/WP.29/GRE/2010/17.
The modifications to the text of Regulation No. 48, including draft Supplement 4 to the 04 series of amendments to Regulation No. 48 (ECE/TRANS/WP.29/2009/91) are marked in bold or strikethrough characters.

Paragraph 3.2.7., amend to read:

"3.2.7. **for vehicles of M and N categories** a description ofcontrol gear, or variable intensity control."

Paragraph 5.27., amend to read:

"5.27. **For vehicles of M and N categories** the applicant shall ...as specified by the applicant, with the following provisions:"

Paragraphs 12.19. amend to read:

"12.19. As from 36 months from the entry into force of Supplement 3 to the 04 series of amendments, Contracting Parties applying this Regulation shall grant approvals only if the vehicle type to be approved meets the requirements of **the paragraphs 3.2.7. and 5.27. of this Regulation** as amended by Supplement 3 to the 04 series of amendments.

Annex 1, paragraph 10.6., amend to read:

"10.6. **For vehicles of M and N categories** comments regarding the electrical supply conditions (according to paragraphs 3.2.7 and 5.27 of the regulations)."

B. JUSTIFICATION

The proposal from OVIG (GRE-60-04) refers to vehicles of the categories M and N only. This has not been taken into account in the document ECE/TRANS/WP29/2009/22 which was submitted to one-hundred-forty-seventh session of WP.29.

The paragraphs 3.2.7, 5.27 and 10.6 of Annex 1 are in line with this.

Also transitional provisions refer only to the OVIG part of the document and not to the all Supplement 3 to the 04 series. The aim of this corrigendum is to clarify the situation.

Indeed the other requirements can be use without using the OVIG proposal. It was not the aim of the proposal to wait till 2012 to apply the all supplement 4, this was only for the OVIG part.

The paragraph 12.19 is in line with this.

Different parts of the supplement 3 of the Series 04 :

	Entry into force End 2009	New type End 2012
Suppl. 3 requirements :		
- increase of the maximum value to 300,000 candela for high beam.		
- new requirement for visibility angles for front position lamps and front indicator direction lamps	Mandatory	Mandatory
- possibility to substitute position lamps		
...		
OVIG requirement part of Suppl. 3	Can be use if wanted	Mandatory
