

**Proposal to amend ECE/TRANS/WP.29/GRE/2010/14**

The text reproduced below was prepared by the experts from Austria to clarify and clearly indicate in the communication form if a electronic light source control gear/variable intensity control is applicable and if so if it is part/not part of the lamp . The modifications to the existing proposal from Poland are marked in **bold** characters.

A. PROPOSAL

Annex 2, item 9, amend to read:

"9. Concise description: 3/

....

Geometrical conditions of installation and relating variations,

if any: .....

Application of an electronic light source control gear/variable intensity control:

(a) being part of the lamp: yes/no/**not applicable** 2/

(b) being not part of the lamp: yes/no/**not applicable** 2/

Input voltage(s) supplied by an electronic light source control gear/variable intensity control:

.....

Electronic light source control gear/variable intensity control manufacturer and identification number (when the light source control gear is part of the lamp but is not included into the lamp body): ....."

B. JUSTIFICATION

This is a clarification to working documents GRE/2010/12, GRE/2010/14 and GRE/2010/15. "Not applicable" is necessary for the case where there is no electronic light source control gear/variable intensity control at all.
