

Terms of reference

- The informal group shall consider the development of a new regulation for “Restraining devices for child occupants of power-driven vehicles” for consideration by GRSP.
- The basis of the discussion will be informal documents No. GRSP-42-2 and GRSP-42-27.
- A step by step approach shall be implemented
 - Phase1: Develop definitions, performance criteria and test methods for ISOFIX Integral “Universal” CRS
 - Phase2 : Develop definitions, performance criteria and test methods for ISOFIX non-Integral “Universal” CRS
 - Mainly based on geometry (child position)
 - Adult safety belt positioning
- In its work, the informal group will take into consideration the results of the discussions held in the informal group and at GRSP as well as the technical expertise of EEVC WG18, EEVC WG12, ISO TC22/SC12, NPACS...
- If necessary, the informal group shall develop complementary test methods and propose alternative judgement criteria.
- The target completion date for the informal group shall be the fifty-one session of GRSP (Mai 2012) for this second phase.
