

Proposal for corrigendum 3 to the 01 series of amendments to Regulation No. 94

The text reproduced below was prepared by the expert from the European Commission in order correct an error which most likely occurred during translation of the original document. The modifications to the existing text of Regulation No. 94 are marked in bold characters.

I. Proposal

Paragraph 1.4.2.2., amend to read:

“1.4.2.2. The fuel tank shall be filled with water to mass equal to 90 per cent of the mass of a full **load of fuel** as specified by the manufacturer with a tolerance of ± 1 per cent;”

II. Justification

It is necessary to specify which mass is to be taken into account, therefore the text is corrected in line with the existing text of the legislation applied in the EU, namely that of Directive 96/79/EC.
