

IWVTA 03-09-Rev.1

# Concept of ECE 0 (IWVTA)

**OICA**

WP29 Informal Group on IWVTA  
2011-06-17

## Basic idea in establishing IWVTA under 58 agreement

IWVTA should be established in line with the principle of the current 58 agreement, i.e.: "the CPs choose to implement Regulations."

Consequently, OICA proposes the new concept of "the Regulation of IWVTA" as "ECE0".

## Principle of ECE 0

- 1. New requirements for whole vehicle type approval are established. (To include the “necessary IWVTA elements” proposed to WP29 by Japan.)**
- 2. Contracting Parties to the 1958 Agreement (hereafter “Contracting Parties”) can select to apply ECE0.**
- 3. A Contracting Party who applies ECE0 (hereafter “ECE0 contracting party”) accepts and issues the ECE0 approvals (pursuant to Article 2 of the 1958 Agreement).**
- 4. The ECE0 contracting party continue to be allowed to accept and issue individual ECE approval (pursuant to Article 2 of the 1958 Agreement).**
- 5. Issue of additional requirements or specifics to be further evaluated**
- 6. Once ECE0 is adopted by a Contracting Party, all the ECE Regulations in the List of necessary ECE regulations also are adopted simultaneously (no additional procedure) by the Contracting Party (but only for the case of M1 vehicles).**
- 7. Once an ECE0 approval is obtained, it shall be unnecessary to obtain and affix each individual ECE type approval mark (Vehicle system approval only).**
