

**GRRF AEBS/LDWS Informal Working Group  
14<sup>th</sup> Meeting, 9 to 11 May 2011**

**Proposed amendments to the draft AEBS collision mitigation Regulation (AEBS-M) in relation to vehicle types approved pursuant to the AEBS collision avoidance Regulation (AEBS-A)**

- Document ECE/TRANS/WP.29/GRRF/2011/24 (collision mitigation)

Paragraph 4.1. amend to read:

- 4.1. If the vehicle type submitted for approval pursuant to this Regulation meets the requirements of paragraph 5. below, approval of that vehicle shall be granted.

**A vehicle type that has been approved pursuant to Regulation N° XX on collision avoidance emergency braking systems (AEBS-A) shall be deemed to meet the requirements of this Regulation and approval of that vehicle type shall be granted accordingly.**

**Justification:**

In the discussions at GRRF 69 on AEBS, it has been proposed to include a recognition clause in the draft collision mitigation Regulation clarifying that vehicles approved in according to the collision avoidance Regulation would be deemed to comply with the requirements of the collision mitigation Regulation (document ECE/TRANS/WP.29/GRRF/69, §5).

The additional wording proposed for § 4.1 of the draft collision mitigation Regulation aims to provide this clarification.
