

Draft ideas of a possible financing of DETA:

1. Financing-Type A:

All *contracting* parties to DETA shall pay a yearly amount for usage:

[50 to 200] x yyyy\$ per year = annual costs of DETA

2. Financing-Type B:

Pay per upload → unclear if DETA costs be covered

3. Financing-Type C:

Pay per download → unclear if DETA costs be covered

4. Financing-Type D:

DETA is fully supported and financed by the UNECE

5. Financing-Type E:

Automotive industry is taking care of the financing of the system.

6. Financing-Type F:

Any kind of mixture and cooperation of the Type A-E!

The informal group of DETA shall find and provide the justifications for the pros and cons of the different financing types (A-F).
