

## Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals

Sub-Committee of Experts on the Transport of Dangerous Goods

28 November 2012

### Forty-second session

Geneva, 3 – 11 December 2012

Item 2 (c) of the provisional agenda

**Recommendations made by the Sub-Committee on its thirty-ninth,  
fortieth and forty-first sessions and pending issues: electric storage systems**

## Proposal of correction

### Note by the secretariat

1. At its 39th session, the Sub-Committee adopted a correction to 2.9.4 as follows:

“2.9.4 At the end of (a), insert the following new note:

*"NOTE: Batteries shall be of a design type proved to meet the testing requirements of the Manual of test and criteria, part III, sub-section 38.3, irrespective of whether the cells of which they are composed are of a tested design type."*

*(Reference document: informal document UN/SCETDG/39/INF.60)*”.

2. As sub-section 38.3 of the Manual of Tests and Criteria only refers to cells and batteries “types” and not to “design types”, the secretariat proposes to correct the Note to read as follows:

*"NOTE: Batteries shall be of a type proved to meet the testing requirements of the Manual of Tests and Criteria, part III, sub-section 38.3, irrespective of whether the cells of which they are composed are of a tested type."*
