Proposal for Corrigendum 1 to Revision 3 of Regulation No. 98 (Headlamps with gas-discharge light sources)

Note by the secretariat***

The text reproduced below has been prepared to correct Revision 3 of the Regulation, aligning the English version of footnote1 in the scope of the Regulation to the French version. It is submitted to the World Forum for Harmonization of Vehicle Regulations (WP.29) and to the Administrative Committee (AC.1) for consideration.

* In accordance with the programme of work of the Inland Transport Committee for 2010–2014 (ECE/TRANS/208, para. 106 and ECE/TRANS/2010/8, programme activity 02.4), the World Forum will develop, harmonize and update Regulations in order to enhance the performance of vehicles. The present document is submitted in conformity with that mandate.

** This document is submitted late because the secretariat has just noticed the error to correct.
Administrative provisions, Scope, footnote 1, correct to read:

"1 Nothing in this Regulation shall prevent a Contracting Party to the Agreement applying this Regulation from prohibiting the combination of a headlamp approved "PL" (Plastic Lens) under this Regulation with a mechanical headlamp-cleaning device (i.e. with wipers) on vehicles which it registers."
