

IMMA proposal to amend ECE/TRANS/WP.29/2012/76.

1. BACKGROUND

IMMA submitted to GRE proposals to amend Regulations Nos. 53 and 113 (ECE/TRANS/WP.29/GRE/2012/15), which permit, as an option, the fitting of bend lighting in the low beam head lamps of motorcycles. At the sixty-seventh session of GRE, discussions about the bank angle value of 5 degrees took place. The value [3] degrees was proposed by IMMA but some experts questioned this figure.

In Regulation No. 53, prior to the proposed amendment ECE/TRANS/WP.29/2012/76 and GRE-67-21, the provision given was as follow:

"6.2.6.1. However, the additional light source(s) or additional lighting unit(s) shall not be activated when the bank angle is less than 5 degrees."

2. PROPOSAL (to amend ECE/TRANS/WP.29/2012/76)

Paragraph 6.2.6.1., amend to read

"6.2.6.1. However, the additional light source(s) or additional lighting unit(s) shall not be activated when the bank angle is less than [~~3~~] 5 degrees."

3. JUSTIFICATION

Prior to the sixty-eighth session of GRE, IMMA informed the Secretariat and the Chair of GRE that it wished to withdraw its proposal and was proposing to keep the original value unchanged. Consequently, IMMA now requests WP.29 to withdraw its proposed text of bank angle of 3 degrees and keep the original value of 5 degrees.
