## Sign-up for GM's Plant Tour

Select the tour option during registration to see the following:

- Highly green and environmentally friendly, the Baltimore facility is GM's exclusive manufacturer of the two-mode hybrid drivetrain.
- **Hybrid 2-MODE Transmissions** - This transmission is in the Chevy Silverado and GMC Sierra HD 2500 & 3500 pickup trucks and the Chevy Tahoe, GMC Yukon and Cadillac Escalade SUVs.
- **GXE Spark EV** - The electric motor going into the GXE is manufacturing work that GM has brought back to the U.S. and is the only vehicle manufacturer to do so.
- **Electric Motor Equipment (New Building)** - GM is in the process of erecting about a 100,000 sq. ft. building. This building will house the assembling of electric motors as part of GM's vehicle electrification efforts. In keeping with our Environmental philosophy, this building will be LEED certified.
- For additional information, please visit [GM's Baltimore Operations Website](#).
