IV. Draft revised Resolution No. 40

The Working Party on Inland Water Transport,

Recalling the effectiveness of measures already taken by Governments and appointed bodies associated in international federations to regulate the issue of documents for operators of pleasure craft including bare boat charter vessels in the waters of foreign countries,

Considering that there is a need to strengthen this action by the introduction of a European document;

1. Recommends the issue, by the competent authority or by bodies approved by implementing Governments, on request and if the requirements set forth in Annex I are satisfied, of an international certificate concerning the competence of operators of pleasure craft (“international certificate of competence” or “ICC”) to their own nationals or residents or to the nationals of any North American country or any country that is not a member of the United Nations Economic Commission for Europe, provided they are holders of the implementing Government’s national certificate or have passed an examination in accordance with Annex I, Part I, paragraph 2 where this is accepted by the implementing Government.

The international certificate ICC should conform to the models in Annexes II or III to this resolution and should be made out in the official national language or languages, the title of the document being given, if possible, in two of the three languages: English, French and Russian.

2. Requests Governments to inform the Executive Secretary of the Economic Commission for Europe whether they accept this resolution and its annexes and, if so:

(a) within their national shipping police regulations to recognize in their territory the documents issued by the competent authorities or by bodies approved by Governments of other countries,

(b) to communicate to the secretariat:

• the names of the competent authorities and/or the approved bodies;

• the chosen format (Annex II or III) of the international certificate ICC;

• that the documents are only issued if the applicant has proved that the requirements of Annex I are satisfied;

• the procedure for the issue of the international certificate ICC;

• the outline police regulations applying to visiting operators of pleasure craft, in particular the limits of recognition of the international certificate ICC.

3. Decides that this resolution replaces Resolution No. 14, revised, as reproduced in documents TRANS/SC.3/96 and TRANS/SC.3/131.

4. Requests the Executive Secretary of the Economic Commission for Europe to place the application of this resolution on the agenda of the Working Party on Inland Water Transport every year, to keep the list of the countries applying this resolution up-to-date for the Working Party’s sessions and to supplement or amend the annexes thereto, as necessary.
