DETA:
Database for the Exchange of Type Approvals documentation
General information

DETA

Context: Revision 3 of the 1958 Agreement

Why: Modernization (replacing paperwork)

Priority: Exchange of UN Regulation No. 0 Type Approvals (IWVTA)

Add-on: Unique Identifier ➔ Can be used for the purpose of marking

Decision: WP.29 endorsed the proposal by the DETA IWG See ECE/TRANS/WP.29/1104, para. 63
### Project organisation

#### R & D (2003)
- Technical feasibility study
- Definition of specifications
- Software development

#### Doc (2007)
- Creation of the documentation (User Guide)

#### Testing (2011)
- Implementation in Germany (CERON) and then in the EU (https://www.etaes.eu/)
- Big scale testing phase during several years
- Administrative and technical feasibility study of ISU for the migration to UNECE/ISU and UNOG/ITCS

#### Start (2013)
- Formal mandate from WP.29 to go on with DETA
- UNECE project start (Budget, HR, etc.)

#### UNECE (~2016)
- Migration: KBA agreed to provide support
- Implementation into the UNECE IT structure (UNECE/ISU and/or UNOG/ICTS)

---

#### Productive Phase

- Project lead by the UK and Germany (KBA)
- Then, project lead by the informal group experts on DETA
- Project taken over by UNECE
QUESTIONS RAISED BY THE SECRETARIAT:

- Can DETA be “MS SQL” based instead of “Oracle” based?
  ➔ WP.29 agreed with the “MS SQL” platform

- Are there countries willing to make donation for DETA?
  ➔ No donor. Germany & KBA agreed to support UNECE

- Timeline: Completion by?
  ➔ WP.29 agreed that end of 2016 would be sufficient
  ➔ IT division of UNECE is checking details with the software house, whether end of 2016 can be targeted

Impact on marking simplification for GRE

- DETA will be available «just in time»

- <UI> is already implemented in the software

- Transitional provisions will be necessary
