India’s Comments on ECE/TRANS/WP.29/GRE/2014/9.

A. Proposal:

<p>1.</p>	<p>Proposed paragraph 6.4.1 may be amended as: “Number One or two approved as a category S1 device according to Regulation No.7 or stop lamp according to Regulation No. 50 as specified in paragraph 5.14.4. Optional one approved as a category S3 device according to Regulation No. 7 as specified in paragraph 5.15.4.</p>
<p>2.</p>	<p>Title for the proposed paragraph 6.4.3.1 may be amended as: For category S1 device specified in Regulation No. 7 or stop lamp specified in Regulation No. 50 stop lamp(s) specified in paragraph 5.14.4</p>
<p>3.</p>	<p>Proposed paragraph 6.4.3.2 may be amended as 6.4.3.2 For category S3 device specified in Regulation No. 7 stop lamp specified in paragraph 5.15.4 In height: The horizontal plane----- tangential to the upper edge of the apparent surface of stop lamp(s) specified in paragraph 5.14.4</p>
<p>4.</p>	<p>Proposed paragraph 6.4.4 may be amended as 6.4.4. Geometric visibility For category S1 device specified in Regulation No. 7 or stop lamp specified in Regulation No. 50 stop lamp(s) specified in paragraph 5.14.4 Horizontal angle: -----than 750 mm. For category S3 device specified in Regulation No. 7 stop lamp specified in paragraph 5.15.4 Horizontal angle: ----- the horizontal.</p>

B. Justification:

India supports the proposal from Experts from IMMA. The changes proposed are of editorial nature as explained below:

1. Repetitions of the expressions “category S1 device specified in Regulation No. 7 or stop lamp specified in Regulation No. 50” and “S3 device specified in Regulation No. 7” can be avoided by referring to paragraphs where they appear first time. This will reduce the work of amendments consequential to any future changes in UN R7.
2. In the case of para 6.4.3.2, clarification that there could be 2 stop lamps and additional clarification that in the 2nd paragraph, last line, the text “--- the upper edge of apparent surface ----” is that of the mandatory stop lamps.
