Proposal for Supplements to the 05 and 06 series of amendments to Regulation No. 107 (M2 and M3 vehicles)

Submitted by the expert from the International Organization of Motor Vehicle Manufacturers *

The text reproduced below was prepared by the expert from the International Organization of Motor Vehicle Manufacturers (OICA) to clarify the current transitional provisions of UN Regulation No. 107. It is based on informal document GRSG-105-16 (see report ECE/TRANS/WP.29/GRSG/84, para. 12). The secretariat was requested to insert all transitional provisions. The modifications to the current text of UN Regulation No. 107 are marked in bold for new characters.

* In accordance with the programme of work of the Inland Transport Committee for 2012–2016 (ECE/TRANS/224, para. 94 and ECE/TRANS/2012/12, programme activity 02.4), the World Forum will develop, harmonize and update Regulations in order to enhance the performance of vehicles. The present document is submitted in conformity with that mandate.

II. Justification

The transitional provisions currently lack the provisions that allow maintaining as valid the preceding series of amendments for vehicles that are not affected by the 05 series of amendments (mandatory equipment of an alarm system detecting excessive temperature in some compartments not directly visible to the occupants).
