EUROPEAN AGREEMENT ON IMPORTANT INTERNATIONAL COMBINED TRANSPORT LINES AND RELATED INSTALLATIONS (AGTC)

EUROPEAN AGREEMENT ON MAIN INTERNATIONAL RAILWAY LINES (AGC)

New amendment proposals (updating and extension of the AGTC and AGC networks)

Realignment of rail and combined transport links between Denmark, Germany and Sweden

Note by the secretariat
I. INTRODUCTION AND MANDATE

1. The amendment proposals below have been prepared by the secretariat of the United Nations Economic Commission for Europe (UNECE) in line with the mandate of:

   (a) the Working Party on Intermodal Transport and Logistics (WP.24) to monitor, review and update the AGTC Agreement in accordance with its programme of work for 2008-2012, programme element 02.9 (b) (ECE/TRANS/2008/11);

   (b) the Working Party on Rail Transport (SC.2) to consider the AGC Agreement with a view to possibly implementing and, whenever feasible, improving existing standards and operational parameters, also taking account of new East-West traffic flows in accordance with its programme of work for 2008-2012, programme element 02.5.1 (a) (ECE/TRANS/2008/11).

II. REASONS FOR THE PROPOSED AMENDMENTS

A. Realignment of railway line E 45 (AGC) and combined transport line C-E 45 (AGTC)

2. The AGC and AGTC Agreements provide that the present AGC line E 45 and AGTC line C-E 45 between Oslo (Norway) and Bari (Italy) link Göteborg-Helsingborg-Helsingör-København-Nyköping-Rødby-Puttgarden-Hamburg. However, the rail ferry link between Helsingborg (Sweden) and Helsingør (Denmark) is no longer operational and international passenger and freight traffic is moving since the year 2000 across the new railway bridge over the Oresund between Malmö (Sweden) and København (Denmark).

3. Also the rail ferry link between Rødby (Denmark) and Puttgarden (Germany) is today only used for passenger trains. Freight trains take the route from København via Odense-Frederica-Padborg-Flensburg to Hamburg. However, a new road-rail bridge will be constructed between Rødby (Denmark) and Puttgarden (Germany) to cross the Fehmarn belt that is planned to come into operation as of 2018.

4. As a consequence, it is proposed to re-align railway lines E-45 and C-E 45 between Helsingborg and København so as to continue on the Swedish side south until Malmö and then cross the Oresund bridge to København. In addition, the railway line from København via Odense and Flensburg could be inserted as an alternative to the future railway bridge across the Fehmarn belt to Hamburg. This proposed realignment would require in the AGTC Agreement that the present combined transport line C/45/1 from Göteborg (Sweden) and Frederikshavn would end at Fredericia where it would link with the newly aligned C-E 45 line.
B. Realignment of railway lines E 530, E 51 (AGC) and combined transport lines C-E 530, C-E 51 (AGTC)

5. The AGC and AGTC Agreements provide that railway lines E 530 and C-E 530 link Nykøbing-Gedser (Denmark) with a ferry link to Rostock (Germany). However, on the Danish side this line is no longer used for rail freight transport. Similarly there exists no rail ferry link between Gedser (Denmark) and Rostock (Germany) and there are neither rail cargo handling facilities in the port of Gedser nor rail tracks in the port of Rostock. It is therefore proposed to consider deletion of E 530 and C-E 530 on the Danish side between Nykøbing and Gedser as well as the rail ferry link between Gedser and Rostock.

6. As a result of this deletion on the Danish side, lines E 51 and C-E 51 going from Rostock to Nürnberg would become purely domestic lines in Germany. They could thus be deleted in the AGC and AGTC Agreements. Alternatively and in case these lines are still considered important for international rail and combined transport, they could be added as a northern extension of existing lines E 451 (AGC) and C-E 451 (AGTC) extending from Nürnberg via Passau to Wels in Austria.

In order to bowdlerise the numerous route numbers, the proposal by the UNECE Secretariat to combine the connection E51, C-E 51 with the connection Nürnberg – Passau – Wels (E 451, C-E 451) under the unified route number E451, C-E 45, could be picked up and supplemented by the connection E530, C-E 530. Hence a connection Nykøbing – Gedser – Rostock – Berlin – Halle/Leipzig – Erfurt – Nürnberg – Passau – Wels would emerge under a unified route number (e.g. as E451, C-E 451).

7. In line with the above considerations, the Working Party on Intermodal Transport and Logistics (WP.24) and the Working Party on Rail Transport (SC:2) may wish to decide, in accordance with the legal procedures described in section V below, on the following proposals for amendment of the AGC and AGTC Agreements.

III. EUROPEAN AGREEMENT ON MAIN RAILWAY LINES

Annex II

B. Border crossing points of importance for international combined transport

Add the following border crossing point:
Malmö (SJ)-København (DSB)

Delete the following border crossing points:
Helsingborg (SJ)-København (DSB)
Gedser (DSB)-Rostock (DB)

D. Ferry links/ports forming part of the international combined transport network
Delete the following ferry link/port:
København-Helsingborg (Denmark-Sweden)
Gedser-Rostock (Warnemünde) (Denmark-Germany)
V. **LEGAL PROCEDURES FOR AMENDMENTS OF THE EUROPEAN AGREEMENT ON MAIN RAILWAY LINES AND EUROPEAN AGREEMENT ON IMPORTANT INTERNATIONAL COMBINED TRANSPORT LINES AND RELATED INSTALLATIONS**

8. In accordance with article 11 of the AGC Agreement and article 15 of the AGTC Agreement, at the request of a Contracting Party, amendment proposals shall be considered by SC.2 for the AGC Agreement and by WP.24 for the AGTC Agreement.

9. In case the consultation process among countries directly concerned as stipulated in Articles 11 and 15 of the AGC and AGTC Agreements has been concluded, representatives of Contracting Parties to the AGC and AGTC Agreements may formally wish to adopt these amendment proposals at the present session of the respective Working Party. The secretariat would then transmit these proposals to the United Nations Office of Legal Affairs, Treaty Section for depositary action.
