Seventy-second session

Geneva, 4-7 October 2016

Item 5 (b) of the provisional agenda

Proposals of amendments to ATP: New proposals

Editorial correction to Russian-language version of ATP

Transmitted by the Government of the Russian Federation

Summary

Executive summary:

When working with the text of ATP, in Section 2 of Model No. 2 A of the test reports contained in Appendix 2 of Annex 1 to ATP, an error was identified in the formula for the K coefficient for the inside-heating test.

In the Russian-language version the formula is given as $K = \frac{W_1 - W_2}{S \cdot \Delta T}$
However, the English and French-language versions have the correct formula for the K coefficient $K = \frac{W_1 + W_2}{S \cdot \Delta T}$

Action to be taken:

Introduce the editorial correction to the Russian-language version in Section 2 of Model No. 2 A in Appendix 2 of Annex 1 to ATP, by giving the correct formula for the K coefficient for the inside-heating test

$$K = \frac{W_1 + W_2}{S \cdot \Delta T}$$

Background:

None
