UNECE Transport Statistics Activities

Alex Blackburn
Secretary, Working Party on Transport Statistics

Working Party on Inland Water Transport (SC.3)
Geneva, 4-6 October 2017
Overview

- WP.6 in 2017
- Data Collection and Dissemination
  - IWW Statistics collected
  - New E-Road Census Map Dissemination
- Methodology
  - Transport Glossary Group of Experts
WP.6 in June 2017

- Half-day workshop on collecting rail statistics
  - Details at http://tiny.cc/UNECE-Rail-Stats
- Glossary revision process elaborated, establishing an Informal Group of Experts to provide input
- Pilot questionnaires approved/extended
Data Collection

• Web common questionnaire (with ITF/OECD and Eurostat)
  • Covers infrastructure, vehicle fleet and traffic levels
  • Road, rail, inland waterways, pipelines
  • Always open to receive data, but we now send reminders every Autumn

• Road accidents questionnaire to countries not covered by the CARE database
IWW Data

• Total tonnes carried and Tonne-km
  • Broken down by national transport, international transport (loaded and unloaded), transit by IWW, push/tow and self-propelled vessels

• Number, power and capacity of vessels
  • Broken down by year of construction
Improved Data Disseminated Online

• Country data now published ~3 times a year, last update in September
• Many more indicators added, and dissemination cubes simplified in August
• Download data here: http://w3.unece.org/PXWeb/en
Two Main Publications

Inland Transport Statistics
  • Latest version published in June

Road Accident Statistics
  • Latest version to be published in October

All available from https://www.unece.org/trans/resources/publications/transport-statistics.html
Infocards: Published with ITC
E-Road Census: Interactive European map

Glossary Revision

- Glossary first published 1994. Joint publication with ITF and Eurostat
- Covers ALL Modes
  - Infrastructure
  - Transport equipment
  - Traffic
  - Safety
  - Ancillary topics: economic performance, employment, energy consumption
Glossary revision process

- Informal Group of Experts established under WP.6
- Experts from 13 countries, covering most modes (not pipeline or inter-modal), and many international organisations (incl. Sava River Basin Commission)
- Collaboration starting with review of existing definitions and agreeing process, meetings to follow; a long process expected
- More inputs from Inland Waterway Experts welcome!
Glossary revision process

New: Maritime Accidents

New: Environmental Impact

New: Passenger Mobility

Improve geographical scope

Review existing definitions
Thank you! Questions?
