- **Update of the PTI Decree ongoing**
- **PTI centres exist but have lack of capacity in order to carry out correct PTI**
- **Participation at the WP.29 and GRs sessions is highly recommended**

Name of event ……, place, date, year
**Questions to WP.29**

**EuroMed countries:**
- generally agree to align their legislation with that of the UN framework
- only a few of them CPs to UN Agreements and some are considering their accession
- they face difficulties to implement new legislation and the Agreements, as was the case with current CPs
- Each country has different needs

**Questions**
- can CPs help EuroMed countries offering clarifications, comments, etc. on the Agreements, activities of the AA, Technical Services etc.?
- is it possible to designate a CP as a guide for each country?
- can we ask manufacturers’ support (OICA, IMMA & CLEPA) not only through their WP.29 delegates but also through their local representatives?
- can we expect CITA’s support to EuroMed countries on PTI?
Thank you!
