A device type approved according to a lower level of series of amendments to this regulation may be installed on a new type of vehicle, provided that the change index related to each individual lamp, being part of this device, does not differ from that indicated in Table 2.

A new series of amendments shall have no impact on existing devices, type approved according to previous series of amendments to this regulation, provided that the change index related to each individual lamp, being part of this device, does not differ from that indicated in Table 2. In this case no impact means no modification or update of the type approval documents and markings on the device is required.
LSD Marking examples

Rear direction indicator lamp (variable)

Rear position lamp (variable)

Reversing lamp (note: the letters A and R may be mingled)

Stop lamp (variable)

168R04-22179

R-168 series 04. Approval number 22179
The 05 Series of amendments is introduced by a general change that affects all the functions (lamps).

LSD Marking example – Without Change Index

Rear direction indicator lamp (variable)

Rear position lamp (variable)

Reversing lamp (note: the letters A and R may be mingled)

Stop lamp (variable)

168R04-22179

R-168 series 04. Approval number 22179
LSD Marking example – With Change Index

Rear direction indicator lamp (variable)

Change index

Reversing lamp (note: the letters A and R may be mingled)

Change index

168R04-22179

R-168 series 04.
Approval number 22179
Further work for the SLR Group

- Introduce a definition of “change index”
- Amend the draft LSD, RID and RRD Regulations to incorporate this approach in the main body and annexes
- Add a clear guidance in Annex 7 on how to apply the markings
- Add a new Annex 8 and renumber the subsequent ones
- Produce a corresponding draft proposal that would apply to the use of the UI

➤ Introduce this (agreed) approach to the IWG-DETA on 09 Nov 2017 and to the IWVTA SG58 Meeting on 10 Nov 2017

➤ Check the Draft Guidelines in Document SG58-22-10Rev1 and SG58-23-04 and prepare SLR input for the 10 Nov 2017 meeting

</table>

- No change
- “Old” Series of amendment replaced by “new” change index
- SLR 1: no fundamental change. Keep the current situation
- To be precised in each 3 new REG in ‘Marking requirements’ paragraph: define clearly the sequence of marking, regarding to the general requirements form 58 agreements
