Proposal for an amendment of Regulation No. 13 (Heavy vehicle braking)

Submitted by the expert from The Netherlands*

The text reproduced below was prepared by the expert from The Netherlands with the aim to delete a redundant requirement. The modifications to the existing text of the Regulation are marked in bold for new or strikethrough for deleted characters.

* In accordance with the programme of work of the Inland Transport Committee for 2016–2017 (ECE/TRANS/254, para. 159 and ECE/TRANS/2016/28/Add.1, cluster 3.1), the World Forum will develop, harmonize and update Regulations in order to enhance the performance of vehicles. The present document is submitted in conformity with that mandate.
I. Proposal

Annex 5.

Paragraph 2.2. and 2.2.1., shall be deleted

“2.2. Anti-lock braking system of trailers

2.2.1. Trailers of category O₄ shall be equipped with category A anti-lock systems as defined in Annex 13 to this Regulation.”

Paragraphs, 2.3. to 2.4.1. (former), shall be renumber as paragraphs 2.2. to 2.3.1.

II. Justification

The proposal is aimed to delete a redundant requirement. The paragraphs 2.2. and 2.2.1. are superfluous since paragraph 5.2.2.13. already requires all O₄ trailers to be equipped with Anti-lock Braking Systems (ABS) of Category A.
