Benchmarking Transport Infrastructure Construction Costs

Group of Experts
Status presentation

September 2017
Scope of work

• Identify models, methodologies, tool and good practices for evaluating, calculating and analysing inland transport infrastructure costs
• Identify and list terminologies used in UNECE region for construction costs of inland transport infrastructure and in possible create a glossary of agreed terminologies and related explanations
• Collect and analyse data in order to prepare a benchmarking of transport infrastructure costs along ECE region for road, rail, inland waterways, intermodal terminals, logistic centres and ports
Way of work

• Governments
  • Sub-groups
    • Roads
      • Leader: Turkey
    • Rails
      • Leader: tbd
  • IWW
    • Leader: tbd
  • Intermodal terminal/Logistics centers
    • Leader: Europlatforms EEIG and Turkey
• Ports
  • Leader: tbd

• Secretariat
• Islamic Bank of Developement consultant
• Working Parties and goups of experts within UNECE
Outputs

• Roads:
  • Terminology: approved
  • Questionnaire: approved

• Intermodal terminals/logistic centres:
  • Terminology: on preparation up to October 2017
  • Questionnaire: on preparation up to October 2017

• Rails, IWW, Ports:
  • Working on support from Governments to lead subgroups
