Z. Transport and Security

Inland Transport Committee

This action plan sets out the objectives and strategies to improve transport infrastructure and services, thereby boosting economic growth and reducing poverty and inequality. It also aims to ensure that transport systems are sustainable and resilient to climate change.

The action plan focuses on four key areas:

1. Transport infrastructure and services
2. Transport efficiency and connectivity
3. Transport safety and security
4. Transport and the environment

The action plan is based on the following principles:

- Universal access to safe, affordable, and environmentally friendly transport services
- Integration of transport and mobility planning
- Strengthening institutional capacity and governance
- Enhancing partnerships and collaboration

The action plan will be implemented through a set of specific initiatives, including:

- Development of transport policies and strategies
- Investment in transport infrastructure and services
- Promotion of sustainable and innovative transport solutions
- Enhancement of transport governance and regulation

The action plan will be monitored and evaluated to ensure its effectiveness and impact.
Annex I

Summary table showing which SDGs the various thematic areas are addressing.
