#### **Documentation**

ECE/TRANS/WP.1/166

### **2. Activities of interest to the Working Party**

Due to time constraints, neither interventions nor presentations are foreseen for this agenda item. National delegations and international organizations will have the opportunity to submit, in writing, information on national and international road safety activities and initiatives, including recent and forthcoming changes to their traffic legislation as well as any information on the events going to take place prior to the next WP.1 session.

### **3. Convention on Road Traffic (1968)**

#### **(a) Consistency between the Convention on Road Traffic (1968) and Vehicle Technical Regulations**

At the last session, WP.1 considered ECE/TRANS/WP.1/2017/1/Rev.1 (France, Italy and Laser Europe) which presents a consolidated text of the relevant parts of the Convention and

contains the already adopted and still to be adopted amendment proposals. WP.1 revised ECE/TRANS/WP.1/2017/1/Rev.1 until point 61 (c), Chapter IV (Exemptions). At the current session, the working party is expected to continue discussing Chapter IV and subsequently decide on all other outstanding provisions using ECE/TRANS/WP.1/2017/1/Rev.1. The Government of Germany will be invited to table two amendment proposals intended to be included in ECE/TRANS/WP.1/2017/1/Rev.1.

**(b) Driving permits**

At the last session, the informal group of experts on driving permits presented ECE/TRANS/WP.1/2018/1/Rev.1, which contains a comparison of three potential driving permit options for the future, including the pros and cons of each option. WP.1 discussed the three options, took note that many delegates expressed their preference for option B, and requested the informal group of experts to reflect on the comments provided and – to the extent possible – incorporate them into ECE/TRANS/WP.1/2018/1/Rev.2 to be tabled at the current session. WP.1 will be invited to discuss it.

**Documentation**

ECE/TRANS/WP.1/2018/1, Rev.1 and Rev.2

**(c) Automated driving**

*(i) Vehicles with automated driving systems: The concept of activities other than driving*

At the last session, the French delegate in his capacity as the Chair of the Informal Group of Experts on Automated Driving (IGEAD) informed WP.1 that a document to address the issues of “activities other than driving” based on Informal document No. 1 (May 2018) and Informal document No. 4 (May 2018) would be tabled at the current session as ECE/TRANS/WP.1/2018/2/Rev.1. WP.1 will be invited to discuss it.

*(ii) Situations when a driver operates a vehicle from the outside of the vehicle*

At the special session in May 2018, France, on behalf of Japan, the Netherlands, and the United Kingdom of Great Britain and Northern Ireland, had informed WP.1 about the status of ECE/TRANS/WP.1/2018/3. At the last session, the French delegate further informed WP.1 about the Informal Group of Experts’ intention to – on the basis of ECE/TRANS/WP.1/2018/3 – prepare a document to address “situations when a driver operates a vehicle from the outside of the vehicle”. WP.1 will be invited to discuss ECE/TRANS/WP.1/2018/3/Rev.1.

fully automated vehicles in road traffic”). At the current session the secretariat will table the annex as ECE/TRANS/WP.1/2018/4/Rev.3 for information only. WP.1 will also be invited to consider how to promote the Resolution.

(iv) *Amendment proposal to Article 8 in the 1968 Convention on Road Traffic*

At the last session, France introduced Informal document No. 6 (September 2018), which contained a preliminary amendment proposal to Article 8 in the 1968 Convention on Road Traffic. France informed WP.1 that it intended to revise Informal No. 6 (September 2018) for submission at the current session. WP.1 will be invited to discuss the updated document.

(v) *Joint event of WP.1 and WP.29, “Automation in Transport: Safe deployment of automated vehicles in traffic”*

WP.1 will be updated on, and invited to discuss, the outcomes of its dedicated special session, held during the 81st ITC session on 18 February 2019, as a joint event in coordination with the World Forum for the Harmonization of Vehicle Regulations (WP.29).

At the last session, the Chair of the Group of Experts on Road Signs and Signals updated WP.1 on the progress made by the Group in reviewing the 1968 Convention on Road Signs and Signals and the 1971 European Agreement supplementing the convention. To this end, the Chair introduced Informal document No. 1 (September 2018) which contains the Group’s first draft of the final report. At this session, the Chair will present the Group’s draft final report (Informal document No. 1 (March 2019)), the recommendations on the “non-convention” signs, and provide an update on the overall progress. As a follow-up to discussion at the last session (para. 30, ECE/TRANS/WP.1/165), WP.1 may also wish to discuss the colour combination inconsistencies allowed by the 1968 Convention on Road Signs and Signals (i.e., round red and white mandatory signs).

The secretariat will update WP.1 on the progress in developing e-CoRSS (electronic version of the 1968 Convention on Road Signs and Signals).
